

plot

- aspect_ratio
- color (a bud' jméno nebo r,g,b vektor)
- thick, title, xtitle, ytitle, xrange, yrange
- font_color, font_name, font_size, font_style
- histogram
- linestyle
- position
- symbol, sym_size, sym_thick, sym_color, sym_filled, sym_fill_color
- name

polarplot

scatterplot

text

- alignment, vertical_alignment, baseline, orientation, position
- font_color, font_name, font_size, font_style
- string

image

- aspect_ratio, rgb_table

legend

- keyword: target
- auto_text_color

arrow

symbol

polygon

polyline

axis

- axis('Y', location=)

barplot

- nbars, index
- fill_color

boxplot

- vykreslí: minimum + 0.25 kvartil + medián + 0.75 kvartil + maximum

bubbleplot

- magnitude =
- jako scatterplot, ale velikost odpovídá hodnotě

colorbar

- target =
- orientation, position, title

ellipse

- keywords: major, minor
- color, fill_color

errplot

window

map

- map('geographic')
- limit
- mapgrid (grid=mapgrid, grid.linestyle, grid.font_size)

mapcontinents

mapgrid
