

map

- `graphic = MAP(Projection, [, Map Properties=value] [, Map Grid Properties=value] [Keywords =value] [, Properties=value])`
- `projection` – řetězec určující typ projekce (např. 'geographic')
- `limit = [latmin,lonmin,latmax,lonmax]`
- `graphic.mapgrid`: (případně nová funkce)
 - `color, fill_color, linestyle, thick`
 - `/box_axes, box_color, box_thick`
 - `font_name, font_size, font_style`
 - `grid_longitude, grid_latitude`
 - `label_color, label_show`

map_continents

- `graphic = MAPCONTINENTS([Filename] [, Keywords=value] [, Properties=value])`
- `/continents` (default), `/usa`, `/hires`
- `/countries`
- `/lakes`, `/rivers`
